

Tranont Daily Method of Operation

The DMO tracks what you must do every day to grow your business. Track your **Income Producing Activities** as a daily checklist, and measure how quickly you're climbing toward Emerald.

Just like climbing a mountain, reaching Emerald depends on developing the habit of consistently doing the right activities to get the right result.

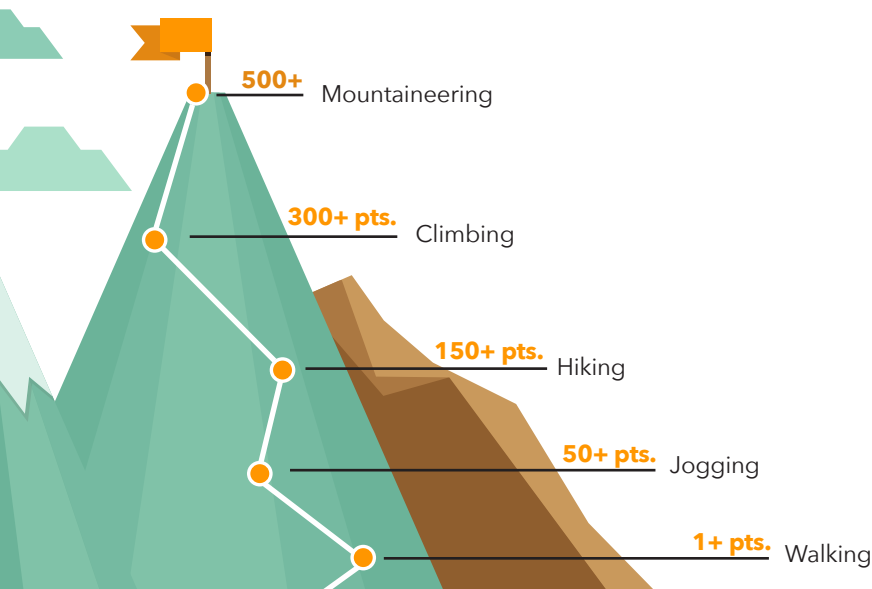

Every day, track your climb in these three areas:

1. Using Tranont products
2. Sharing Tranont products
3. Sharing the Tranont opportunity

Do the suggested activities below, then mark down how many points you earned by completing an activity. Most activities should be done **more than once a day**.

Track your progress over time and work on consistency and improvement.

How Quickly Are You Climbing To Emerald?

Activities	pts.
Use Tranont Products	
Actively use any Health or Wealth product	1 pt.
